

Acunto Brand Guard

Executive brand monitoring for NIL, pro teams, and high-net-worth clients

Problem: Athletes, teams, and principals often discover impersonators, fake merch, lookalike domains, public leaks, and pile-ons after sponsors or fans already saw them.

Offer: Continuous monitoring of *publicly available* information plus subscriber-provided keywords — with severity triage, an alert inbox, weekly digest, and educational takedown playbooks (we refer counsel / partner firms; we do not do illegal removals).

What we watch (public web only)

- News & blogs · public social mentions (official APIs / public search)
- Impersonation & scam patterns · lookalike domains (RDAP + reachability)
- Optional: NewsAPI, X/Twitter API, HIBP for subscriber-provided emails only
- Public company filings (SEC EDGAR / OpenCorporates) for org subjects

Pricing (estimates to test)

NIL individual

\$50–\$250/mo

Dashboard + alerts; human review on higher tiers

Team / department

\$1,500–\$7,500/mo

Roster packages + onboarding

HNWI / family office

\$2,000–\$10,000+/mo

White-glove analyst + incident support

Pilot CTA

5 pilot watchlists — free/discounted for signed authorization + scope letter.
